**INSTRUCTION FOR STAND CONSTRUCTION**

The floor is made out of concrete and natural stone tiles. We do not recommend a separate piece of carpeting, because it will not stay properly attached to the carpet. If you use a separate carpet, please install it on a board.

The only tape that can be used on the natural stone tiles and concrete is a tape with light adhesive. If tape with too strong adhesive (duct tape, double-sided mounting tape) has been used at the stand to attach decorations or the carpet, we will invoice the exhibitor afterwards for the cleaning costs incurred

Attaching posters, signs etc. to the walls and surfaces of the exhibition area is **only** allowed if using masking tape. The use of other types of tape, nails, screws etc. is not allowed.

If materials that are not allowed are used, the exhibitor will be invoiced for any damage or extra cleaning costs after the event.

Any goods exhibited are the exhibitors' responsibility. We recommend you acquire the insurance needed and keep easily movable goods / items locked up when stand is unattended.

**LOGISTICS, STORAGE AND FORWARDING SERVICES**

All goods sent to exhibition stands can be delivered starting from the construction day. The exhibitor should be present to receive all deliveries.

Messukeskus staff cannot sign for your shipments. The items cannot be stored at any other location before, during or after the event, except for the facilities of Niemi® Messupalvelut Oy, the forwarding service operating at Messukeskus, in which case the forwarding service staff takes care of shipping and signing for the items. In that case, the address is as follows:

Niemi® Messupalvelut:
