## External Quality Assessment Program for *Brucella*, antibodies

EQA scheme *Brucella*, antibodies, is again available in Labquality's scheme selection. The scheme is suitable for different assays. The EQA samples should be analysed as regular patient samples. Participants submit their results through the electronic platform LabScala, and results are processed by the EQA coordinator. Results will be evaluated according to method groups based on bacteria serology principles and result levels, and they will be commented by the scheme expert.
