

LABQUALITY

External Quality Assessment Program for Norovirus, antigen detection

Labquality is announcing a new EQA scheme for antigen detection of Norovirus using point-of-care testing. The EQA samples should be analysed as regular patient samples. The participants submit their results through the electronic platform LabScala and results are processed by the EQA Coordinator. Result evaluations will be published in the final report distributed to the participants.

Round 1, 2024 will be a pilot study free-of-charge for a limited number of participants. The pilot round will open in September.

5686 Norovirus, antigen detection

Samples: 2-3 Norovirus I and Norovirus II antigen swab formulations
Distribution: 1, 2024 September-October – pilot study free-of-charge
Registration: Please register by August 15th, 2024, only via [this link](#) or scan the QR code
Participation: Limited number of samples available
